

Padlet Resources

www.padlet.com

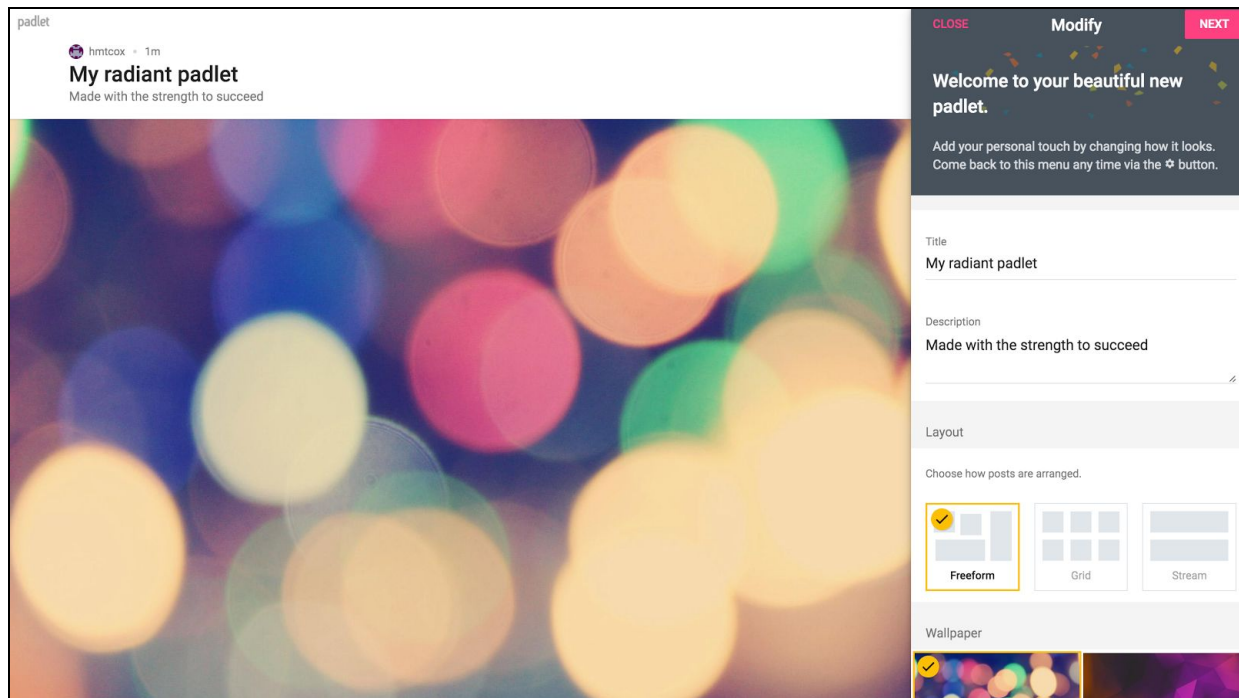

1. Create an account or log-in.

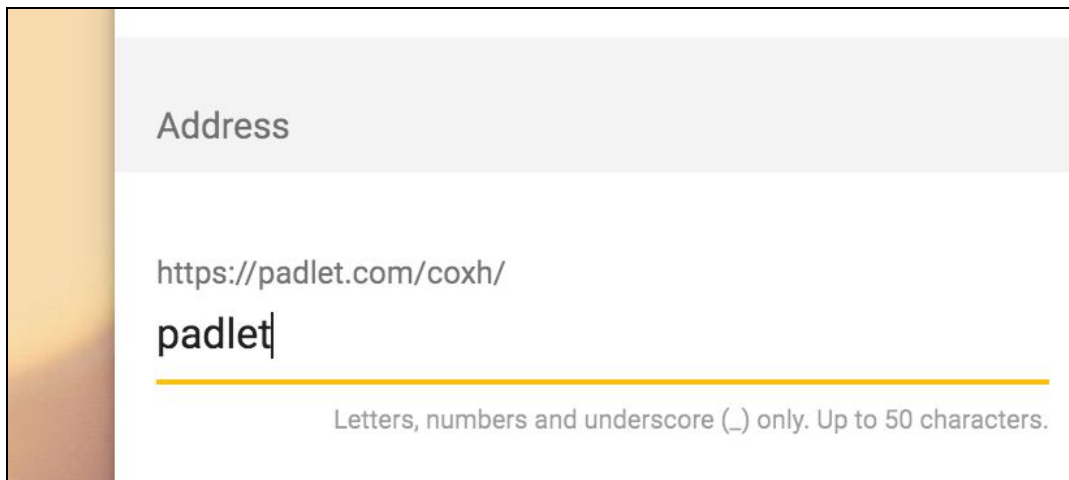

2. Click "Make a Padlet"

3. Using the column on the right side, make adjustments to the title, description, layout, etc. of the Padlet page.

4. Be sure to give your Padlet page its own name/link.

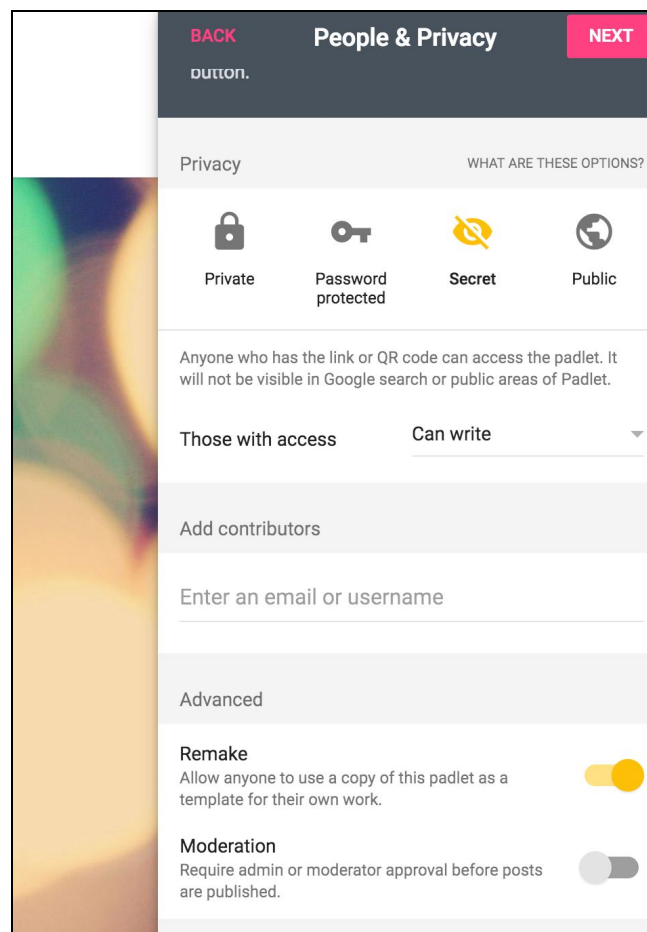

A screenshot of the Padlet address field. The field is labeled "Address" and contains the text "https://padlet.com/coxh/padlet". Below the text is a yellow underline and a note: "Letters, numbers and underscore (_) only. Up to 50 characters."

In this case, your address will now be:

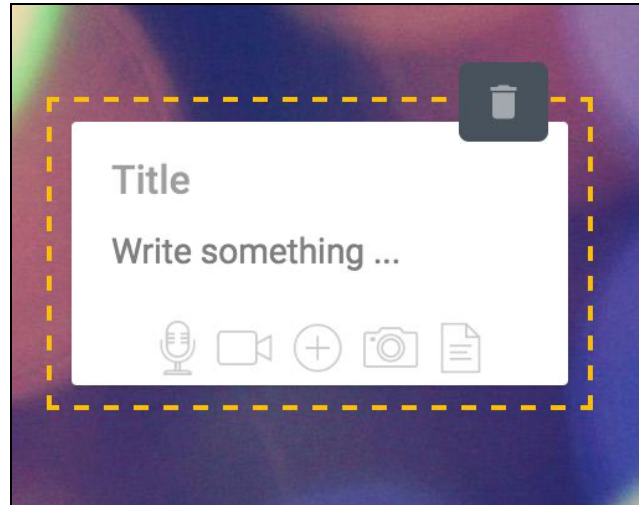

<https://padlet.com/coxh/padlet>

5. Select NEXT and set your viewing/writing permissions.

A screenshot of the Padlet "People & Privacy" settings screen. The screen has a dark header with "BACK" on the left, "People & Privacy" in the center, and "NEXT" on the right. Below the header is a "Privacy" section with a link "WHAT ARE THESE OPTIONS?". There are four options: "Private" (lock icon), "Password protected" (key icon), "Secret" (eye with slash icon), and "Public" (globe icon). Below these options is a description: "Anyone who has the link or QR code can access the padlet. It will not be visible in Google search or public areas of Padlet." There is a section for "Those with access" with a dropdown menu set to "Can write". Below this is an "Add contributors" section with a text input field "Enter an email or username". At the bottom is an "Advanced" section with two toggle switches: "Remake" (allow anyone to use a copy of this padlet as a template for their own work) which is turned on, and "Moderation" (require admin or moderator approval before posts are published) which is turned off.

6. To post, double click on the wall. Add a title and write something about the post. You can add audio, video, images, files, and links.

7. Share your wall with students, parents, or teachers.
